EMPLOYMENT

Software Developer Intern	Seagate Technology	Summer 2015

- Developed Java software focused on using the ojdbc libraries to connect to the Oracle database for customer use.
- Wrote Oracle SQL scripts for Big Data analysis with raw data to find patterns and relationships for development.

Windows Phone App Developer	Microsoft Corporation (Sphero Pilot Project)	Summer 2015

- Developed a motion-perfect game for the Windows 8.1 phone with a MYO to control the Sphero.
- Utilized Azure's mobile/cloud services to run node.js (required) in order to create listening ports for the devices.
- Parsed audio files into ranges of various decibel levels of frequency using p5.js to generate dynamic game files.

Microsoft Student Partner	Microsoft Corporation	Fall 2014 - present

- Develops apps/demos, demonstrates the newest technologies, and hosts tech events on campus.
- Acquires the tools and training to lead technology workshops and builds my global network with industry experts.

Web Developer	IMRC	Fall 2012 – Fall 2014

- Utilized Drupal 7 to manage and update Lehigh websites for the College of Arts and Sciences.
- Processed monthly requests from Arts and Sciences to create them new websites operating the Zen theme.

TECHNICAL EXPERIENCE

Projects

- **Project Asclepius** *Winner of a Best Microsoft Prize, Hack The Planet* (2015). Developed a Windows 10 Application that attempts to help those diagnosed with Cerebral Palsy with their motor functions using muscle therapy (MYO).
- **Oculus Drift** *Winner of the Best Medical Hack by Merck and winner of the Best Embedded Hardware Hack by L3-Communications*, *HackRU, Rutgers University* (2015). Built a wireless chassis controlled by a MYO armband and a camera connected to the chassis that is controlled by an Oculus rift with using the laptop as the central controller.
- **eMeteAidor** *Winner of the Microsoft Prize, NASA's SpaceApps Hackathon* (2015). Developed an early response protocol web app for when meteorites or asteroids have made impact on Earth. Technologies used: Microsoft Azure, Facebook's Parse, Microsoft's Bing Search Engine. APIs used: Google Maps, Venmo, PayPal, Yelp.
- **NY Company Matcher** *Winner of the Best IBM Bluemix Hack*, *HackNY, Columbia University* (2015). Developed a website that helps VCs find which company to invest in and job seekers find which company they want to look for by using Glassdoor's API and IBM's supercomputer Watson technology, Personality Insights.

LEADERSHIP/MANAGEMENT EXPERIENCE

Project Manager	DaVinci Science Center Museum	Spring 2015 - present

- Developing an iOS application that shows the museum's dynamic schedules for tourist users for capstone project.
- Manages weekly reports, meetings, and communication between the client and the team to meet set deadlines.

Community/Programming Chair	Association of Computer Machinery	Fall 2013 - present

- Runs workshops to undergraduate/graduate students to teach HTML, CSS, JS, GIT, RUBY, ROR, and Azure.
- Spearheads on-campus hackathons bringing in sponsors such as Microsoft, Lockheed Martin, Google, and Lutron.

Vice President	University Productions	Spring 2013 - present

- Develops dynamically agile methodologies to efficiently spend over $500,000 on club events.
- Won "Best Programming Award" of the 2013-2014 year for single-handedly planning and executing the Lehigh University Halloween Festival using $6,000.

Residential Advisor (RA)	Gryphon Society	Fall 2013 – Spring 2015

- Served as an immediate sources of support and assistance by living on a hall of 48 undergraduate students.
